UltraComfort America's patented positioning technology sets new standards for comfort. The positioning of a StellarComfort chair allows for a greater range of positions at the touch of a button. These positions may help improve circulation, relieve back pressure and enhance comfort. Experience the difference of this unique motion technology available in multiple sizes.

Power Articulation Head

Power Articulation Head Forward

Power Articulation Head Back

User-friendly feature of every UltraComfort recline chair:

Easy to use battery backup system. Each UltraComfort recliner has a battery backup system in the electrical transformer which operates on two 9 volt batteries. In the event of a power failure, the battery system will raise the chair from the reclined to the seated position. The batteries should be replaced after one use.

Literature is current at time of printing. UltraComfort reserves the right to make changes to the product or literature at any time.

Complies with
 UL 73 and
 CSA C22.2 No. 68

Positioning you for life.
